## Objective:

To deploy my skills and enhance them in a professional web development team.

## Technical Skills:

Coding Languages	Development Tools	CMS	Other
HTML5/CSS3	jQuery	WordPress	Adobe Creative Cloud
SASS/LESS	AJAX	WooCommerce	Digital Marketing / SEO
JavaScript/ES6+	React.js	Theme Development (PHP)	
	REST APIs	Responsive Web Design	

## Experience:

### ADAPT Community Network

02/2021 – Present

#### Front-end Web Engineer

- Work with existing company's website to remodel and make it much more user friendly (involves working on WordPress, PHP, HTML/CSS/Vanilla JavaScript, and jQuery).
- Manage website and SEO activities including content strategy, link building, and keyword strategy to increase rankings on all major search networks.
- Manage and organize email marketing systems and constituents to send out targeted emails.
- Create and maintain a file management system that improves the overall function of a business workflow and organizes important data that sits in a searchable database for quick retrieval.

### iCodetheWeb

03/2018 – 02/2021

#### Self-employed Web Developer

- Work with local businesses, entrepreneurs, and artists to build websites, graphics, and unique brands.
- Execute modern front-end web development skills to complete projects.
- Build front-end web applications using HTML, CSS, JavaScript, and API integration.
- Set up and customize WordPress/WooCommerce to create custom CMS and E-Commerce themes.
- Implement SEO on new and existing projects to secure high ranking on search engines.

## Education:

### New York City College of Technology

Brooklyn, NY | GPA 3.2

#### Bachelor's in CST | Software Development (June 2020)

- SQL Database System Fundamentals
- Web Programming, I and II
- XML Data Representation
- Object-oriented Programming (Java)
- Software Development / .NET Framework
- Dynamic Web Development Servlet and JSP
- Multimedia and Mobile Device Programming
- App Development with Database

## Strengths:

- Strong interpersonal skills
- Knowledge of the full software development cycle
- Ensure that deployed software is scalable and reliable
- Familiarity with a variety of programming styles (e.g. OO, functional)
- Demonstrable working knowledge of API usage and industry best practices
- Results-driven and lifelong learner
